Portfolio

SUMMARY

Computer Science student specializing in Artificial Intelligence at National University, with a STEM background and a strong research track record. Lead researcher on three studies (qualitative, quantitative, and applied) and builder of Break the Light, a full-stack digital wellness platform. Combines data analysis, survey design, and clear academic writing with leadership experience as Head Secretary of the Consortium of Data Enthusiasts.

EDUCATION

National University – Clark 2026 – Present
Bachelor of Science in Computer Science, specialization in Artificial Intelligence

Livingstone International School Inc., Angeles City 2012 – 2026
Elementary to Senior High School, STEM Strand (graduated 2026). Outstanding Capstone Award, Sy. 2025 – 2026.

Brightwoods School, Pandan, Angeles City 2011 – 2012
Kindergarten

RESEARCH EXPERIENCE

Lead Researcher | Children's Data and Social Media: Platform Responsibility for Minors' Privacy October 2026

- Led an ethics case study with six co-authors who contributed background research; designed and ran the survey (N=30 young Filipino internet users), analyzed the data, and wrote the full paper.
- Found a behavioral paradox: 86.7% say lying about age online is wrong, yet 83.3% admitted to doing it; 66.7% reported connecting with strangers with large age gaps.
- Connected results to UN General Comment No. 25 and Philippine bills (HB 9965, HB 9461, SB 1819); recommended privacy-by-design, device-level age signaling using zero-knowledge proofs, and mandatory local representation for platforms.

Lead Researcher | Break the Light: Wellness Intervention 2025

- Designed a digital "Pop-Up Break" platform using mixed-methods research to reduce blue light exposure and screen-related anxiety.
- Built the full-stack web platform with Flutter, Firebase Auth, Firestore, and Google Cloud reCAPTCHA, focused on digital wellness and student behavioral data.
- Synthesized qualitative and quantitative data into behavioral and tech-based wellness strategies; pilot-tested with 26 participants and 4 expert evaluators to improve student sleep quality.

Quantitative Researcher | Comparative Study on Blue Light Exposure 2025

- Ran a cross-institutional statistical analysis of 66 Grade 11 students across three campuses (LIS, NU Clark, AUF).
- Analyzed correlations between screen duration, sleep indicators, and stress levels from structured survey data to identify exposure patterns and demographic trends.

Qualitative Researcher | Blue Light Influence on STEM Students 2024

- Interviewed students aged 15–16 on the psychological impact of blue light; performed thematic analysis linking academic cognitive load to sleep disruption.
- Mapped behavioral patterns to show student perceptions of digital eye strain and anxiety.

LEADERSHIP & INVOLVEMENT

- **Head Secretary**, Consortium of Data Enthusiasts

- **Secretary**, Visual Arts Club (Grade 12, 2025 – 2026)
- **Master of Ceremonies**, Seniors' Ball, LSIS (Sy. 2024 – 2025)
- **Secretary**, Theatre Arts Club (Grade 9, 2021 – 2022)
- **President**, NEXUS ICT Club (Grade 6, 2019 – 2020)
- **Original member**, NEXUS Robotics Team (2016 – 2017); member of Glee Club (Grades 1, 2, 3, 11)

WORK EXPERIENCE

Clinical Work Immersion Student | MS Pineda Psychology Clinic, Angeles City — March 2026

- Managed and organized sensitive psychological records with 100% compliance with data privacy protocols and client confidentiality.
- Observed consultations and intake processes between licensed clinicians and clients to understand diagnostic and therapeutic workflows.
- Worked with collegiate interns and licensed staff to support daily operations; applied HIPAA-equivalent privacy standards and professional ethics.

Operations & Logistics Assistant | Cabsthriftshop, Bamban, Tarlac (short-term) — May 2022

- Packed and prepared high-volume customer orders for accurate, timely distribution.
- Kept a manual ledger of customer details and transactions with 100% accountability for sales.

ACHIEVEMENTS & CERTIFICATIONS

- **Certificate of Participation**, Can You HackIT: The IBPAP Challenge (Clark), Team "CRTL + AI", October 9, 2026
- **Outstanding Capstone Award**, Sy. 2025 – 2026
- **1st Runner-Up**, RCC Debate Competition 2025 (Second Speaker); 1st Runner-Up, LSIS Lantern Making Competition 2025
